

Careers in Agriculture

Your future might surprise you.

Discover the real careers
behind Queensland
agriculture.

A place to build your future

QUEENSLAND
FARMERS'
FEDERATION

Think agriculture is just farming? Think again.

Queensland's agriculture sector supports more than 386,000 jobs across science, technology, business, engineering, the environment and beyond - and it needs curious, driven people like you to help continue growing food, fibre and foliage for our state, nation and the world.

The Careers in Agriculture magazine is packed with real stories from people working across Queensland's food production industries, plus industry guides, study pathways and tools to help you find your fit.
