If you are nominating another individual or group, do they know they have been nominated?

 YES NO

As the nominee, you will be the first point of contact related to this application.

2022

REEF CHAMPION AWARDS

REEF NUTRIENT STEWARDSHIP CHAMPION AWARD

CRITERIA QUESTIONS

Tell us how changes to the nominee's farming practices have reduced nutrient run-off and improved water quality. Please include details of activities including innovative or best management practices and how they intend to carry on with these practices. (300 words)

How have these changes benefited the nominee personally (e.g. cost savings, improved productivity, more free time, increased profits, better land condition or soil health, quality of life)? Please provide examples. (300 words)

How has the nominee shared their learnings and experience with other groups, extension officers and landholders in their area? Include things like participation at field days, workshops etc. (300 words)

2022

REEF CHAMPION AWARDS

OPTIONAL CRITERIA

THE PRINCE OF WALES ENVIRONMENTAL LEADERSHIP - REEF SUSTAINABILITY AWARD

By filling out this optional criteria nominees will be eligible to be awarded The Prince of Wales Environmental Leadership - Reef Sustainability Award.

ABOUT THE AWARD

His Royal Highness has expressed a personal interest in the sustainability of the Great Barrier Reef for future generations. The award seeks to inspire the farming community to adopt best practice approaches to the pressing environmental challenge of water pollution impacting on the Great Barrier Reef.

The winner of the award will be chosen based on the strength of their application. The judging panel will consider: the quality of results and environmental outcomes associated with the project; the strength of partnerships and the degree they were used as a tool to solve the issue; degree of project innovation, uniqueness, and ground-breaking action; and importance of project goals in broader sustainable land management efforts.

Prince's Trust
Australia

ABOUT THE PRINCE'S TRUST AUSTRALIA

Australians today face a wide array of modern challenges in an increasingly uncertain world – including climate change, changing demographics, mental health and the rapidly changing nature of work. More effective action is needed to address these 21st century challenges.

Working with partners and learning from best practice, Prince's Trust Australia exists to make a positive difference for Australians in the following focus areas: Young People, Defence Members & Their Families and Sustainable Communities.

Thanks to support from our Patron community our programs are accessible at no charge to participants, thus providing opportunities for people to thrive and society to prosper. The Prince of Wales is President of The Prince's Trust Australia and is deeply interested in our program portfolio.

CRITERIA QUESTIONS

Describe the nominee's combined efforts and achievements in nutrient, sediment and pesticide management and conservation (integrated approach to reef impact), how the nominee may have increased wider community and farmer awareness and participation, how some of the nominee's work has the potential to be scaled or how the nominee has collaborated/partnered to generate collective impact.
